Any young man wishing to learn a good profession should investigate the opportunities offered in the telegraph field by writing at once for the School's free, descriptive literature.

Saturday of this week marks an event of no small moment to Arcadia shoppers. What we refer to is the beginning of the Annual August Sale of M. An ample force of attentive clerks has been provided and will take pleasure in showing you anything you may wish to see in their large and varied stock.

At Bushnell's Nurseries

Who said they wanted Kumquat trees? The oblong fruited sort, the best sort. Bushnell has them at 25 to 50 cents. A few extra large ones \$1.00 each.

What about a lemon tree? Even if you only have a small place you can find room for one tree and raise your own lemons. You pay 25 cents a doz. for them and possibly spend four or five dollars a year for this necessary fruit. Bushnell has the best and most hardy sort, Genoa or Excelsior, two year old well branched on four year old stock, will bear fruit in a little over a year, price 50 cents.

You know the Magnolia, Magnolia grandiflora, the grandest, most beautiful of our Southern evergreen forest trees, broad, thick, leathery leaves dark green on top and generally brownish underneath. Large, waxy, lemon scented flowers 8 to 10 inches broad, quite a rapid grower when once established. If you are looking for an ornamental shade tree there is none better. 4 to 6 feet \$1.00 each, can be booked for December delivery, now.

The English Christmas tree "The Holly." Our American Holly is very much like it, (Ilex opaca.) You have seen pictures on Christmas candy. Holly is a moderate rapid grower, succeeds in a wide range of soils, must be well cut back in transplanting. Bright green spikey leaves and brilliant scarlet berries make it one of our most handsome evergreen shade trees. 3 to 4 feet 75 cents, 4 to 6 feet \$1.00, 5 to 7 feet \$1.25. Orders booked at Bushnell's for December delivery.

Camphor trees. You know all about them, there are a good many in DeSoto county. Some one may want a few trees. Bushnell furnishes good stocky trees 3 to 4 feet, 40 cents, 4 to 5 feet 75 cents. If you want some extra large trees I can furnish a few at \$2.00 but the smaller trees are more readily transplanted and more sure to live. Set from December till April.

While I am writing about ornamental evergreens, don't forget the Loquat, (Eriobotrya Japonica) sometimes called Japanese Medlar or Japanese Plum. It is a strikingly handsome tree. Leaves are rough hairy underneath. Young shoots are woolly. The growth is very compact and forms a well rounded head, not a large tree, hardly ever exceeds twenty to twenty-five feet. It is covered with large spikes of fragrant, spicy perfumed white blossoms from August till November. Fruit ripens last of February to last of March. It is about the size of a Wild-Goose Plum, bright yellow, an agreeable acid flavor, oblong in shape, frequently thirty to forty well formed fruit in one bunch. Makes a fine jelly and preserves. One to two feet 30 cents each, \$2.50 for 10.

Roses, Evergreens, Shade and Ornamental trees, a great variety of vines and all sorts of Citrus Trees at reasonable prices.

I will receive the last of December a fine lot of Peach trees that have been budded for me by the Glen St. Mary Nursery Co., one of the most reliable growers in the State. The sorts ordered are such as I have succeeded with on my own place. Order now.
